PREVIOUSLY it was the custom of Mrs. Mürchie, the woman lecturer for the Democratic party, to address the women voters of an area with the idea of securing their suffrage by the adoption of their principles, the two parties having no real principles in common. She now addresses the women voters with the idea of securing their votes by the adoption of their principles, the two parties having no real principles in common.

Mrs. Mürchie's lecture was the first of a series of lectures which she will give in the city. She was introduced by Mrs. Helen Hand Thayer of Portland, who welcomed the women to the meeting by a statement of ideas and ideals which have made her the only woman in the state who has ever spoken to women voters.
