WON NH Speaker Series:
Wildlife and One Health Group of New Hampshire

“Wildlife Disease Surveillance – the Canadian Way”

Brian Stevens, DVM, DVSc, DACVP

Thursday, July 18, 2019
@ 10:00 am
Morse Hall, Rm 401
The University of New Hampshire

Dr. Stevens is the wildlife pathologist for the province of Ontario and the territory of Nunavut, Canada, under the employ of the Canadian Wildlife Health Cooperative. His laboratory is in the Department of Pathobiology at the University of Guelph, in Ontario, Canada where he received a Bachelor of Science, Doctor of Veterinary Medicine, and Doctor of Veterinary Science degree; the latter was concurrent with anatomic pathology residency training. For three years between his DVM and his residency / DVSc, Dr. Stevens was in general small animal practice. Dr. Stevens spent 3 years as a senior veterinary pathologist at the NHVDL prior to taking his current position. At the NHVDL Dr. Stevens was an active collaborator on multiple wildlife disease investigations.

Dr. Stevens will be presenting on the local, regional and national mechanics of a nationwide wildlife health network, the factors and challenges of working with the communities in the sparsely populated, largest and northernmost territory of Canada, as well as introducing interesting cases or case series he has encountered.
