The National Science Foundation Graduate Research Fellowship (NSF-GRFP) provides up to $120,000 for students pursuing a research-based masters or doctoral degree in NSF-supported fields (all STEM fields, as well as psychology, economics, social sciences, STEM education, anthropology, linguistics, etc.).

Must be U.S. citizen or permanent resident. Must be a senior (Dec 2019 or May 2020 graduate) or in the 1st or 2nd year of graduate school. Graduate programs must be research-based (not clinical).

If you plan to apply for the GRFP in fall 2019, please register to take this course. The Fellowships Office and Research Development are using this class as the SOLE means of supporting NSF-GRFP applicants. **We will be unable to support applicants not enrolled in this class during the busy fall semester.** If you have a conflict (a course required for your degree offered at that time), please contact [Jeanne.Sokolowski@unh.edu](mailto:Jeanne.Sokolowski@unh.edu)
